

## **LCA INFORMATION TECHNOLOGIES ACCEPTABLE USE POLICY – GRADES 3-6**

### **RECOMMENDED BY THE GEORGIA-CUMBERLAND CONFERENCE**

In order to use LCA's computer network, the Internet and other information technologies, I need to understand and agree to obey the following rules. If I do not use these resources in the right way, my teacher may take away my privilege of Internet use.

Internet access is offered for student use with the intent to further educational goals and objectives. This service has not been established as a public access or public forum. Each school has the right to place reasonable restrictions on the material you as a student access or post and to specify the training you need to have before you are allowed to use the system.

Access to the Internet through LCA's system requires permission from both the principal or a teacher and your parents. Ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information services. Recognizing the potential for accessing sites other than the educational ones indicated by the classroom activities, families may choose not to permit their children access to the Internet through the school's network.

Use of the computer to access the internet may only occur under the supervision of a teacher or an adult designated by the teacher.
